

# Fast Ring Connectors

Drip Line (Thin and Medium Wall Thickness) Connectors and Tools

## Product Features

High quality drip line connectors  
Suitable for 6–25 mil (0.15–0.64 mm) seamless drip lines including D1000, D5000 and Hydrodrip

## Features

High quality UV resistant construction  
Large tightening nut for easy and quick installation  
Advanced sealing mechanism  
One ring for a wider range of wall thickness  
Great value at a great price

When it comes to drip line connectors there are two things that matter most – ease of installation and reliability. Rivulis Fast Ring Drip Line Connectors live up to their name – FAST! In-field they are quick to install with a large, easy to tighten nut that fixes effortlessly to your drip line.

Once they installed, you can have the confidence that they will perform. Each Fast Ring Connector is designed for maximum adhesion. In addition, high quality UV resistant construction ensures that your connector will last season after season.

Fast Ring Connectors are suitable for all major brands of drip line that do not have a seam up to 25 mil (0.64 mm) wall thickness. Fast Ring Connectors are not suitable for Rivulis T-Tape, Ro-Drip or other drip tapes that feature a seam in their construction. For drip tapes with a seam such as T-Tape and Ro-Drip, use Rivulis Pro-Grip connectors.

## 16 mm Diameter Drip Line Connectors

Image	Item Description	Product Information	Bag Quantity	Box Quantity	Item Reference
	Coupling fast ring 16mm		100	800	101051859
	Adaptor barb 16mm x fast ring 16mm	Barb suitable for 40 mil (0.1 mm) and above	100	1,100	101051860
	Adaptor barb 20mm x fast ring 16mm	Barb suitable for 45 mil (1.1 mm) and above	50	800	101051889
	Start connector with gasket, from PVC or PE pipe, fast ring 16mm	Install into PVC with gasket by drilling a 15mm hole with DR-15 (101001353) and insert with R4-R, simple inserter (101003343)	100	800	101051891
	Gasket for start connector, from PVC or PE pipe, fast ring	Gasket for the start connector above (101051891)	100	3,600	101051884
	Start connector fast ring 16mm, from PE pipe	Install into PE by drilling a 12mm hole with DR-12 (101051466) and insert with R4-R, simple inserter (101003343)	100	1,200	101051892
	Line end fast ring 16mm		100	1,400	101051907
	Adaptor male threaded 1/2" x fast ring 16mm		100	900	101051908
	Tee fast ring 16mm x 3/4" female threaded x fast ring 16mm		50	300	101051909
	Tee fast ring 16mm x 1/2" male threaded x fast ring 16mm		50	350	101051910
	Elbow fast ring 16mm x 1/2" male threaded		50	700	101051911
	Start connector for layflat fast ring 16mm	Install into layflat by cutting a 14mm hole with LFC14 layflat cutter (101001118) and insert with 10mm hex (101051919)	100	500	101051912
	Valve coupling fast ring 16mm x fast ring 16mm		100	300	101051913
	Valve adaptor fast ring 16mm x male threaded 1/2"		50	400	101051914
	Valve adaptor fast ring 16mm x male threaded 3/4"		50	350	101051915
	Valve adaptor fast ring 16mm x barb 16mm	Barb suitable for 40 mil (1.0 mm) and above	50	350	101051916
	Valve start connector fast ring 16mm, from PE pipe	Install into PE by drilling a 12mm hole with DR-12 (101051466) and insert with R4-R, simple inserter (101003343)	50	400	101051917
	Valve start connector for layflat fast ring 16mm	Install into layflat by cutting a 14mm hole with LFC14 layflat cutter (101001118) and insert with 10mm hex. First insert the start connector and then thread the valve.	50	300	101051918

## 22 mm Diameter Drip Line Connectors

Image	Item Description	Product Information	Bag Quantity	Box Quantity	Item Reference
	Coupling fast ring 22mm		50	450	101051885
	Adaptor barb 20mm x fast ring 22mm	Barb suitable for 45 mil (1.1 mm) and above	50	600	101051886
	Start connector with gasket, from PVC or PE pipe, fast ring 22mm	Install into PVC with gasket by drilling a 15mm hole with DR-15 (101001353) and insert with R4-R, simple inserter (101003343)	100	600	101051880
	Gasket for start connector, from PVC or PE pipe, fast ring	Gasket for the start connector above (101051880)	100	3,600	101051884
	Start connector fast ring 22mm, from PE pipe	Install into PE by drilling a 12mm hole with DR-12 (101051466) and insert with R4-R, simple inserter (101003343)	100	700	101051881
	Start connector XL fast ring 22mm	Install into PE by drilling a 18mm hole with dr-18 (101028533) and insert with R4-R, simple inserter (101003343)	100	700	101051882
	Line end fast ring 22mm		100	800	101051883
	Adaptor male threaded 1/2" x fast ring 22mm		50	550	101051888
	Adaptor male threaded 3/4" x fast ring 22mm		50	500	101051890
	Tee fast ring 22mm x 3/4" female threaded x fast ring 22mm		50	250	101051893
	Tee fast ring 22mm x 1/2" male threaded x fast ring 22mm		50	250	101051894
	Elbow fast ring 22mm x 1/2" male threaded		50	500	101051895
	Start connector for layflat fast ring 22mm	Install into layflat by cutting a 14mm hole with LFC14 layflat cutter (101001118) and insert with 10mm hex (101051919)	50	400	101051897
	Valve coupling fast ring 22mm x fast ring 22mm		50	250	101051898
	Valve adaptor fast ring 22mm x male threaded 1/2"		50	300	101051901
	Valve adaptor fast ring 22mm x male threaded 3/4"		50	250	101051902
	Valve adaptor fast ring 22mm x barb 20mm	Barb suitable for 45 mil (1.1mm) and above	50	250	101051903
	Valve start connector fast ring 22mm, from PE pipe	Install into PE by drilling a 12mm hole with DR-12 (101051466) and insert with R4-R, simple inserter (101003343)	50	350	101051904
	Valve start connector for layflat fast ring 22mm	Install into layflat by cutting a 14mm hole with LFC14 layflat cutter (101001118) and insert with 10mm hex. First insert the start connector and then thread the valve.	50	250	101051906

# Fast Ring Drip Line Connectors and Tools

Fast Ring - Tools			
Image	Item Description	Product Information	Item Reference
	Drill Bit - 12 mm (DR - 12)	Suitable for PE. use for start connector fast ring 16mm (101051892) and 22mm (101051881)	101051466
	Drill Bit - 15 mm (DR - 15)	Suitable for PE or PVC. use for start connector with gasket, 16mm (101051891) and 22mm (101051880)	101001353
	Drill Bit - 18 mm (DR - 18)	Suitable for PE. use for start connector XL Fast ring 22mm (101051882)	101028533
	Inserter for start connector	Used for inserting the gaskets into place	101003343
	14 mm Layflat cutter	Used for cutting layflat	101001118
	Layflat plastic driver hex 10mm for fast ring	Used to insert the layflat start connectors into hole cut into the layflat	101051919

Rivulis Pro-Grip Connectors	Rivulis Fast Ring Connectors	Rivulis Heavy Wall Connectors
Easy to install and ideal for both seam and non-seam drip tapes and drip lines up to 25 mil (0.64 mm) wall thickness	The economical solution for drip lines without a seam, up to 25 mil (0.64 mm) wall thickness	Unique triple barb connectors (available for many configurations) allows you to install drip line without the need for additional ratchet clamps. Suitable for all major brands of 30–47 mil (0.76–1.2 mm) wall thickness drip lines.
		
Use with Rivulis T-Tape and Ro-Drip	Use with Rivulis D1000, D5000 and Hydrodrip	Use with Rivulis Hydrogol, HydroPC/PCND, D2000 and D5000
